

Module 3 - Recap card

Web browser, internet page, software and application

A **web browser** is software that enables users to access the Internet (for example, Google Chrome, Mozilla Firefox, Microsoft Edge, Safari, Opera, etc.). It appears

A **web page** is an electronic document that can be viewed via a web browser. Web pages are the basic content of a website.

An **application** is a specific type of software designed to perform a specific task or set of tasks (for example, Microsoft Word, LinkedIn or Netflix).

Software is a general term for a set of programs, data and instructions that enable a computer to perform specific tasks. (A web browser and an application are also software!)
